

ROSA CHABANE

Software Engineer

SUMMARY

Dynamic software engineer with foundational skills in front-end and back-end development, refined through self-directed learning and management experience in a high-paced business setting. Passionate about leveraging strong problem-solving and team leadership skills to build scalable solutions. Eager to contribute to innovative projects in a collaborative software engineering environment.

WORK EXPERIENCE

Manager at Ricciardi's Italian Ice | Houston, TX

March 2017 — September 2023

- Designed and developed a web-based schedule maker app using HTML, CSS, and JavaScript, improving scheduling efficiency by 50%.
- Efficiently developed and managed weekly employee schedules, ensuring optimal coverage and productivity.
- Led the recruitment process by conducting interviews and training sessions, resulting in a highly skilled and cohesive team.
- Oversaw inventory management, maintaining accurate product stock levels to meet customer demand and reduce waste.
- Delivered exceptional customer service to over 100 customers daily, enhancing the overall customer experience.
- Facilitated daily staff communications to address tasks and scheduling needs, fostering a collaborative and responsive work environment.

Recent Projects:

Ricciardi's Schedule Maker (Web App) — Developed using HTML, CSS, and JavaScript. This dynamic scheduling tool allows managers to create, drag, and drop employee shifts with ease. Features include rapid customization of hours, dates, and shifts, and a one-click option to clear schedules for new entries. Improved operational efficiency by reducing scheduling time by 50%.

Los Building Materials (Fullstack Web App) — Developed using HTML, CSS, JavaScript, Bootstrap, and Express.js. This comprehensive web application for a trucking business streamlines contact management, location information, and quote submissions. Features include detailed contact/location information and a responsive quote submission form, enhancing customer engagement and operational efficiency, and increasing quote request submissions by 30%.
